

I'm an *INSPIRED* leader.

“I am constantly being inspired by other strong leaders. I think of myself as a lifelong learner and I believe I learn the most about myself when I am being encouraged by the passion I see in others. Because of my various involvements and experiences throughout my college career and serving as a student trustee, my goal is help inspire others to reach their true leadership potential. I plan to pursue a career in student affairs in order to help shape our future leaders —college students.”

- Natalie Richardson, Junior, Communication Studies

Leadership and Service
